CARF Accreditation Project 2020-2023

We have sent our IRS determination letter in previous years.

The proposed project is for Seeds4Success to achieve CARF Accreditation for 2020 through 2023. CARF holds all supported employment agencies like Seeds4Success to a high standard, one that we achieved in 2016. This standard helps us to be sure that we are providing the absolute best quality employment services to our clients, including job coaching and skills training that help Vashon residents who experience disabilities find and maintain competitive employment in our community.

Our objective is to receive a three year CARF accreditation, allowing us to put the widely known and respected CARF logo on our website and in our promotional materials.

Our current accreditation expires in June, so we plan to have CARF here to evaluate us in May.

The costs of CARF evaluations are as follows:

- \$995 application fee
- \$3,600 site visit fee
- \$200 CARF booklet fee
- An estimated \$500 for lodging and transportation costs of the CARF evaluator.

We can afford the cost of lodging and transportation but need help paying for the application fee, site visit fee and the CARF booklet, totaling \$4,795. We are asking for \$4,795 from Granny's Attic.

We sincerely appreciate your time and consideration,

The Seeds4Success Board of Directors
